Problem gambling is a "hidden addiction" in America and Asian-Americans are hit much harder than the overall population. There are significant efforts in prevention and treatment in Oregon for the overall community and it is now imperative that we address the issue in our Asian-American community.

Join us to hear from speakers, both local and from a successful San Francisco program, who are treating problem gamblers and who will share what they have learned. Problem gamblers are in your caseload and this workshop will help you identify and help them get into specialized treatment. You will also have the opportunity to help us shape the future of problem gambling prevention and treatment for Asian-American community in Oregon.
